Index of Subjects

Acanthocheilonema vitaea, excretory–secretory product of, 229
Adaptation, of field strains of *Rhipicephalus appendiculatus* to host resistance, 149
Age–prevalence curves, interpretation of in schistosome infections in snails, 47
Amastigotes, effects of leucine methyl ester on, 1
Ancylostoma duodenale, effect of temperature on egg development and mortality of, 127
Anticoccidial drugs, development of resistance to by *Eimeria* spp., 189
Antifilarials, evaluation of *in vitro* against *Onchocerca volvulus*, 417
Antigen expression, by *Plasmodium berghei*, 165
Antigenic strains, within carrier strains of theilerial parasites, 139
Antigenic variation, high frequency of in *Trypanosoma brucei rhodesiense*, 67
Antigen shedding, from the surface of *Dirofilaria immitis*, 89
Antigens, developmental changes in, in *Taenia saginata*, 265
Ascaris lumbricoides, epidemiology of in Nigerian children, 275
infections of in Panamanian children, 287
size patterns of in humans, 293
Attenuated schistosomula, immunity induced by, 39

Babesia divergens, protective antigen of, 341
Brugia pahangi, comparison of glucose metabolism of with *Onchocerca volvulus*, 427
effects of potential inhibitors on, 409

Cell cycle, effect of drugs on in *Giardia intestinalis*, 333
Cercarial emergence, of hybrid schisosomes, 225
of *Proterometra macrostoma* and *P. edneyi*, 215
Cercariometry, in the detection of *Schistosoma mansoni* transmission, 349
Characterization, of *Babesia divergens* protective antigen, 341
of coccidial proteins by 2-dimensional SDS–PAGE, 175
of isolates of *Echinococcus granulosus*, 17
Cholinergic drugs, effects of on motility of *Haplometra cylindracea in vitro*, 241
Cloned populations, of *Trypanosoma brucei rhodesiense*, 67
Coccidial proteins, characterization of by 2-dimensional SDS–PAGE, 175
Complement-mediated damage, repair of in *Hymenolepis diminuta*, 437
Cryptosporidium spp., detection of by different staining techniques, 323
Cyst viability, determination of in *Giardia intestinalis*, 329
Cytotoxic antibody, assessment of by flow cytometry using *Giardia muris* trophozoites, 199

Detection, of *Cryptosporidium* spp., 323
Developmental changes, in the antigens of *Taenia saginata* larvae, 265
Development, of infective juveniles in *Steinernema feltiae*, 77
of *Trichostrongylus tenuis* free-living stages, 105
retardation of is a factor in 'non-permissiveness', 365
Diclazuril, development of resistance of *Eimeria* spp. to, 189
Differentiation, effect of lithium chloride on in *Herpetomonas samuelpessoai*, 193
Dirofilaria immitis, antigen shedding from the surface of, 89
neurosecretory-like material in the larvae of, 99

DNA amplification, use of in the detection of *Trypanosoma* subspecies, 57
DNA probes, use of for the characterization of isolates of *Echinococcus granulosus*, 17
use of to characterize *Theileria parva* phenotypes, 205
DNA restriction patterns, in *Globodera* spp., 133
DNA sequence homology, between schistosomes and murine leukaemia virus, 31

Echinococcus granulosus, characterization of isolates of, 17
Egg development, effect of temperature on in helminths, 127
Eimeria spp., characterization of proteins from by 2-dimensional SDS–PAGE, 175
development of resistance by to anticoccidial drugs, 189
Emergence patterns, of *Proterometra macrostoma* and *P. edneyi*, 215
Epidemiology, of soil-transmitted helminths in Nigerian children, 275
Erythrocytic stage, antigen expression by in rodent malaria, 165
Establishment, of *Trichostrongylus tenuis*, factors affecting 259
Evasion of immune attack, possible mechanism of by *Dirofilaria immitis*, 89
Excretory–secretory product of *Acanthocheilonema vitaea*, 229
Excystation *in vitro*, as an indicator of cyst viability, 329
Exoerythrocyte stage, antigen expression by in rodent malaria, 165

Fasciola gigantica, properties of phenol oxidase in, 403
Fecundity, the role of in the success of *Trichostrongylus tenuis*, 253
Filarial excretory–secretory product, characteristics of, 229
Filaricides, potential use of non-steroidal amines as in *Brugia pahangi*, 409
Fingerprint maps, of proteins from *Eimeria* spp., 175
Flow cytometry, use of to assess killing of *Giardia muris* trophozoites, 199
Fluorogenic vital dyes, use of for determining *Giardia intestinalis* cyst viability, 329
Furanolidone, effect of on the cell cycle of *Giardia intestinalis*, 333

Genetic cross, between different trypanosome stocks, 391
Genetic exchange, between *Trypanosoma brucei rhodesiense* and *T. b. brucei*, 391
Genetic heterogeneity, within *Echinococcus granulosus*, 17
Genetic polymorphism, study of in *Leishmania infantum*, 301
Genotypic differences, analysis of in *Theileria parva*, 205
Giardia intestinalis, cyst viability of, 329
effect of drugs on the cell cycle of, 333
Giardia muris, use of flow cytometry to assess killing of, 199
Globodera spp., repetitive DNA and hybridization patterns in, 133
Glucose metabolism, comparison of in filarial nematodes using ^{13}C NMR, 427
Glucose-6-phosphate dehydrogenase-deficient erythrocytes, infection of with *Plasmodium falciparum*, 171
Growth patterns, of single proglottides of *Hymenolepis nana*, 115

Haplometra cylindracea, effects of drugs on the motility of *in vitro*, 241

Helminth infections, in Panamanian children, 287
Hepatic portal vasculature, in 129 strain mice, 383
Herpetomonas samuelpessoai, effects of lithium chloride on, 193
Hookworm, epidemiology of in Nigerian children, 275
infections of in Panamanian children, 287
Hormonal inhibition, in *Brugia pahangi*, 409
Host resistance, adaptation of *Rhipicephalus appendiculatus* to, 149
Hybridization patterns, in *Globodera* spp., 133
Hybrid schistosomes, cercarial emergence of, 225
Hymenolepis diminuta, repair of complement-mediated damage, 437
Hymenolepis nana, growth of single proglottides of, 115

Immune mechanisms, in the infection model of *Schistosoma mansoni*, 357
Immune responsiveness, determines infectivity of *Trichinella* isolates in mice, 83
Immunity, induction of by attenuated schistosomula, 39
Immunization, of cattle against theilerial parasites, factors affecting, 139
of gerbils with *Babesia divergens* merozoite antigen, 341
Immunogenicity, of *Trichinella* isolates in mice, 83
Immunosuppression, correlation of induction of with interferon production during acute toxoplasmosis, 11
Infective juveniles, formation of in *Steinernema feltiae*, 77
Infective larvae, development and survival of in *Trichostrongylus tenuis*, 105
of *Dirofilaria immitis* release a neurosecretory-like material, 99
Infectivity, of *Trichinella* isolates in mice, 83
Inhibition of growth of *Plasmodium falciparum* by human platelets, 317
Insect hormone inhibitors, effects of on *Brugia pahangi*, 409
Interferons, production of during acute toxoplasmosis, 11
Intracellular cycle, analysis of in *Leishmania mexicana mexicana*, 311
Invasion, of reticulocytes by a cloned line of *Plasmodium chabaudi chabaudi*, 157
In vitro evaluation of antifilarials, against adult *Onchocerca volvulus*, 417
Isoenzymes, of *Leishmania infantum*, 301

Kinetoplast DNA, of *Leishmania infantum*, 301
Kinetoplast DNA polymorphisms, in *Trypanosoma* spp. clones, 391

Leishmania amazonensis, effect of leucine methyl ester on the megasomes of, 1
Leishmania infantum, genetic polymorphism studies in, 301
Leishmania mexicana mexicana, quantitative analysis of the intracellular cycle of, 311
Length profiles, of *Ascaris lumbricoides* in humans, 293
Leucine methyl ester, effects of on the megasosomes of *Leishmania amazonensis*, 1
Life-history of excretory–secretory product, of *Acanthocheilonema viteae*, 229
Lithium chloride, effects of on *Herpetomonas samuelpessoai*, 193
Longevity, the role of in the success of *Trichostrongylus tenuis*, 253
Lung inflammation, as a result of relocation of *Schistosoma mansoni*, 365

Macrophages, study of the intracellular cycle of *Leishmania mexicana mexicana* in, 311
Megasomes, as targets for leucine methyl ester in *Leishmania amazonensis* amastigotes, 1
Metronidazole, effect of on the cell cycle of *Giardia intestinalis*, 333
Model simulations, of schistosome infections in host snails, 47
Mortality of helminth eggs, effect of temperature on, 127
Motility indices, evaluation of in assessing antifilarials, 417
Motility, of *Haplometra cylindracea in vitro*, effects of drugs on, 241
Moulting, association of with neurosecretion in *Dirofilaria immitis* larvae, 99

Necator americanus, effect of temperature on egg development and mortality of, 127
Neuropharmacological responses, of *Haplometra cylindracea*, 241
Neurosecretion, in the larvae of *Dirofilaria immitis*, 99
'Non-permissiveness', correlation of with vascular abnormalities, 377
in mice infected with *Schistosoma mansoni*, 365, 377
Nuclear magnetic resonance, use of for the comparison of glycolysis in filarial nematodes, 427

Oxidant-mediated killing, susceptibility of *Plasmodium falciparum* to, 171
Onchocerca volvulus, comparison of glucose metabolism of with *Brugia pahangi*, 427
in vitro assessment of antifilarials against, 417

Parasitaemia, dynamics of in mice infected with a cloned line of *Plasmodium chabaudi chabaudi*, 157
Phenol oxidase, properties of in *Fasciola gigantica*, 403
Plasmodium berghei, antigen expression by, 165
Plasmodium chabaudi chabaudi, reticulocyte invasion by a cloned line of, 157
Plasmodium falciparum, inhibition of the growth of by human platelets, 317
susceptibility of to hydrogen peroxide, 171
Platelets, inhibition of the growth of *Plasmdoium falciparum* by, 317
Portal shunting, accounts for the resistance of 129 strain mice to *Schistosoma mansoni*, 383
Prevalence, of helminth infections in Panamanian children, 287
Proglottides, growth of during early adult development of *Hymenolepis nana*, 115
Protective antigen, against virulent *Babesia divergens*, 341
Proterometra edneyi, cercarial emergence of, 215
Proterometra macrostoma, cercarial emergence of, 215

Repair, of complement-mediated damage in *Hymenolepis diminuta*, 437
Resistance, development of by *Eimeria* spp. against anticoccidial drugs, 189
of red grouse to *Trichostrongylus tenuis*, 259
to *Schistosoma mansoni* in chronically infected mice, 357
to *Schistosoma mansoni* in 129 strain mice, 383
Respiration, effect of lithium chloride on in *Herpetomonas samuelpessoai*, 193
Restriction enzyme digestion, analysis of in the study of genetic polymorphism, 301
Reticulocytes, invasion of by a cloned line of *Plasmodium chabaudi chabaudi*, 157
Retrovirus-related antigen, in schistosomes, 31
Rhipicephalus appendiculatus, adaptation of field strains of to host resistance, 149

Schistosoma haematobium, age-prevalence curves for in host snails, 47
Schistosoma japonicum, retrovirus-related antigen in, 31
Schistosoma mansoni and *S. rodhaini*, characterization of hybrids between, 225
Schistosoma mansoni, detection of transmission of, 349
immunity induced by attenuated schistosomula of, 39
in non-permissive mice, 365, 377
resistance to in chronically injected mice, 357

resistance to in 129 strain mice, 383
retrovirus-related antigen in, 31
Schistosoma rodhaini and *S. mansoni*, characterization of hybrids between, 225
Schistosome injections, of host snails, age–prevalence curves for, 47
Serotoninergic drugs, effects of on motility of *Haplometra cylindracea in vitro*, 241
Snail sampling, evaluation of for the detection of *Schistosoma mansoni* transmission, 349
Staining techniques, analysis of for the detection of *Cryptosporidium* spp., 323
Steinernema feltiae, development in, 77
Strongyloides stercoralis, epidemiology of in Nigerian children, 275
Surface-associated antigens, of *Dirofilaria immitis*, 89
Survival, of the free-living stages of *Trichostrongylus tenuis*, 105
Susceptibility, of *Plasmodium falciparum* to hydrogen peroxide, 171

Taenia saginata, protein and glycoprotein antigens of the larvae of, 265
T cell clones, infection of with *Theileria parva*, 205
Theileria parva, genotypes and cell surface phenotypes of, 205
in carrier cattle, 139
Tick adaptation, to host resistance, 149
Toxoplasma gondii, production of interferons during infection with, 11
Transmission, detection of in *Schistosoma mansoni*, 349
Trichinella spiralis, infectivity of in mice, 83
Trichostrongylus tenuis, development and survival of the free-living stages of, 105
factors affecting the establishment of in red grouse, 259
fecundity and longevity of, 253
Trichuris trichiura, epidemiology of in Nigerian children, 275
infections of in Panamanian children, 287
Trophozoite killing, assessment of by flow cytometry, 199
Trypanosoma brucei, detection of subspecies of by DNA amplification, 57
Trypanosoma brucei rhodesiense, genetic exchange of with *T. b. brucei*, 391
high frequency of antigenic variation in, 67
Trypanosoma congolense, detection of subspecies of by DNA amplification, 57
Trypanosome DNA, amplification of using the polymerase chain reaction, 57

Ultrastructural study, of the repair of complement-mediated damage in *Hymenolepis diminuta*, 437

Vascular abnormalities, correlation of with 'non-permissiveness', 377

Weight profiles, of *Ascaris lumbricoides* in humans, 293
